

News and Views from the Mindemoya Mice
Central Manitoulin Public Libraries By Claire Cline
January 2015

Lots of exciting things happening at the library! First of all the computer courses are still going strong with Music and Computers in General. After these two courses the next one is for Tablets (ipads & androids) Wednesdays starting Feb 18th or Thursdays starting February 19th. Please phone the Mindemoya library 377-5334 or drop in to register for these Tablet courses.

Another exciting program that is starting on Saturday, January 24th and will continue every Saturday is our Children's Storytime 1:30pm to 2:30pm at the Mindemoya library.

Our IT tech is available every Wednesday morning at the Mindemoya library from 10am to 12noon. If you have any problems with your computer or would like to be shown how to do whatever on your computer just bring it in or you can be shown on one of the library computers.

There is no charge for any of the above programs – just enjoy!

Remember we have lovely paintings from local artists on our walls for you to enjoy and they are on sale if you find one you can't live without!

Claire's Top 5 Picks to Read

1. Wild by Cheryl Strayed
2. Cold, Cold Heart by Tami Hoag
3. Hush by Karen Robards
4. The Deep by Nick Cutter
5. Die Again by Tess Gerritsen

Wild by Cheryl Strayed – This has just been released as a movie starring Reese Witherspoon. I hope the movie is as good as the book was. From lost to found on the Pacific Crest Trail. A good read

Cold, Cold Heart by Tami Hoag - A shocking thriller with a promising young TV reporter and a notorious serial killer. Keeps you reading far into the night.

Hush by Karen Robards - A romantic suspense with a down-to-the-wire nail-biter crackling with re-hot tension. Another good read.

The Deep by Nick Cutter – A terrifying new novel by this bestselling author that wrote The Troop. A strange plague is decimating humanity on a global scale. It causes people to forget – small things at first, like where they left their keys and then the not so small things, like how to drive or the letters of the alphabet. Their bodies forget how to function involuntarily. There is no cure.

Die Again by Tess Gerritsen – This is a Rizzoli & Isles novel which is a hit series on television. A riveting story that you won't be able to put down – a great mystery.

SEE YOU AT YOUR LIBRARY!
